Think Coconut based Products. Malabar International

We, at Malabar work with utmost zeal to be recognised as an innovative value added coconut products based company. Our sole mission is to delight our customers with world-class coconut and its allied products at affordable rates. In order to achieve our goal, we have taken utmost care at every stage of our business - from sourcing high quality raw materials - i.e. Coconuts and its related materials to deploying latest technology and to adopting innovative efficient processes, we never compromise on quality and aim to deliver the best.

Coir Pith / Coco Disc

Obtained while processing Coconut Fibres, Coir Pith can hold large quantities of water, like a sponge. Coco Disc is compressed Coir Pith made for use in pots.

Common Usage

- Can be a great replacement for traditional peat in soil mixtures
- Can be used as a soil-less substrate for plant cultivation
- Coco Disc used as potting soil, mainly for Home-Gardening purposes

Coir Fibre - White / Brown

Coir Fibre is a natural fibre extracted from the husk of the Coconut, which forms as the outer cover of the palm.

Common Usage

- Doormats
- Mattresses
- Brushes

Grown under our careful eyes
- There is story behind every product.
